SKILLS

Programming: Python, R, MATLAB, JavaScript
Data Science: Pandas, NumPy, SQL (Intermediate)
Languages: English, Hindi, Marathi (Native), French (Intermediate)

AWARDS

Best Eloquent Speaker ISRO National Space Day 2025
Research Fellowship SRFP, May–July 2025

INTERESTS

Research: Neural Networks, Quantum Mechanics, Cellular Systems, Neurodegeneration
Personal: Photography, Poetry, Coding, Hockey

EXTERNAL INSTITUTIONS

Summer School of Astrophysics IISER Mohali, 2024
Introduction to Biological Systems NCBS Bangalore, 2024
Intro2Astro Open School, 2024

Sannidhya Chaudhary
Second Year BSc student

PROFESSIONAL SUMMARY

Former BS–MS student at the Indian Institute of Science Education and Research, Pune, currently pursuing BSc studies at Jamnalal Bajaj College of Science and as an independent degree student at Indira Gandhi National Open University, Delhi. Interested in systems neuroscience and cognitive brain functions, with hands-on exposure to computational and biology laboratory courses and internships. Seeking a research internship to strengthen practical experience and contribute meaningfully to a neuroscience laboratory.

PREVIOUS INTERNSHIPS’ EXPERIENCE

- Jamnalal Bajaj College of Science, Wardha** May 2026 - current
Self-guided Project Summer Trainee
 - Worked online at home using readily available tools to understand Neurodegenerative Diseases in detail
 - Specifically worked on the Parkinson’s Disease versus Alzheimer’s Disease to understand the objective difference between their functioning and occurrences
 - Understood the usage of developmental tools like AGGREGSCAN and ChimeraX and created MD models of the diseases.
 - Also worked upon the comparison between Huntington’s Disease and Machado-Joseph’s Disease
- National Centre for Cell Science, Pune** May 2025 - August 2025
IAS SRFP Summer Trainee
 - Worked at Dr Gaurav Das’ Lab for the understanding of neural connections between the Gut-Brain Axis
 - Specifically worked on the Parkinsonian *Drosophila melanogaster* flies and their correlation with the Insulin systems and the outcomes of their genetic make-ups
 - Understood the usage of crossing, and learnt about the various lines in the genetic set-up of *Drosophila melanogaster* and the usage of Negative Geotaxis Assay
 - Also worked upon the SCDA and FA Assays for a different set of flies.
- Indian Institute of Science, Bangalore** January 2025 - April 2025
Online Semester Intern
 - Worked virtually with Dr Kavita Babu and studied the functioning of different systems in *Caenorhabditis elegans*
 - Explored the fundamental genetic composition of the worms
 - Gained insights into synaptic processes and neuronal communication in the worms
- National Chemical Laboratory, Pune** May 2024 - August 2024
Summer Research Trainee
 - Worked with Dr G V N Rathna and researched & learnt about Nanomaterials and their particular usage
 - Independently read about the usage of Nanomaterials in human/rat systems to understand about Neurodegenerative Diseases and their identification factors
 - Studied about nanotubes and nanocomposites and their particulars

FIELDS OF INTEREST

- Neurodegeneration
- Mathematics of Neural Networks
- Cell Biology
- Biotechnology

SELF-INITIATED READING PROJECTS

- **Game Theory and Neuroscience** – Kaushik Majumdar
- **Neural Networks and Deep Learning** – Michael Nielsen
- **The Handbook of Brain Theory and Neural Networks** (on-going) – Michael A Arbib
- **Nanobiotechnology in Neurodegenerative Diseases** – Mahendra Rai
- **Neurodegenerative Diseases** – Uday Kishore

PREVIOUS INTERNSHIPS’ EXPERIENCE (CONTINUED)

- **Indian Institute of Science Education and Research, Pune** *December 2023 - January 2024*
Winter Reading Project
 - Studied under the guidance of Dr Pramod Pillai and learnt about Nanomaterials and their uses in certain scenarios
 - Read about the features of Gold nano-particles in the rat systems to understand and identify major system defects
 - Studied about nanotubes and nanocomposites and their particulars

EDUCATION

- **Indira Gandhi National Open University, Delhi** *2026-2029*
BSc with Mathematics Major and Statistics Minor
- **Jamnalal Bajaj College of Science, Wardha** *2025–2028*
BSc with Biology Major and Microbiology Minor (Second Year) - First Division
- **Indian Institute of Science Education and Research, Pune** *2023–2025*
BS–MS (left institute due to health issues) - 8.4 CGPA
- **New Arts, Commerce and Science College, Wardha** *2020-2022*
Higher Secondary Education - 90.00%
- **School of Scholars, Wardha** *2007-2020*
Matriculation - 94.8%
